EXPERIENCE

Lutech S.p.A

Intern AI development team member

Milan, Italy

June 2024 - August 2024

Experience description:

Assisted the AI team in developing an innovative generative AI service to boost internal operativity and efficiency, while also creating my personal light version of the project.

Participated in internal team meetings to gather project requirements and deliver tailored solutions providing at the same time continuous updates and feedback. Gained proficiency in project management and tools like Git, Docker, Linux and Streamlit, also consolidating my PowerPoint and presentation skills. (*References available upon request*)

TEF Ignition program

Milan, Italy

Accepted together with my team ‘SeedZoom’ into TEF's Ignition Program, a competitive initiative for aspiring entrepreneurs, participating in workshops covering venture creation, ideation and startup ecosystems.

LANGUAGES

Italian: Native Language / **English:** Advanced Level (pursued C1 equivalent English Exam in Bocconi and bachelor fully taught in English) / **French:** Basic Level / **Spanish:** B1 Level
